

SWEDCUT

Doctor blade cutter

APPLICATION

For safe handling of our doctor blades we can supply a cutter equipped with blade box holder, special steel shears and measuring bar.

- A blade box is easily fixed in the holder.
- Cuts the blade to exact length with perfect end finish.
- Cuts blade widths varying from 10 mm to 80 mm.
- Cuts blade thicknesses up to 0.35 mm.

The measuring bar with measuring sticks and adjustable end stop can be supplied in any length required by the customer.
