

SWEDCUT

Esterflex

APPLICATION

Primarily used as a containment blade in chambered inking systems.

Base material	Polyester film (PET)
Base material composition	100% ethylene terephthalate
Nominal tensile strength (N/mm²) at room temperature	160
Nominal temperature tolerance (°C)	130
Edge profile	Bevel 17° / Straight edge
Standard packaging	0.35 mm thick blade: 100 m coils in reinforced carbon box
